**GETAC INC. ANNOUNCES MULTI-YEAR AGREEMENT TO SUPPLY AND
SERVICE RUGGED MOBILE COMPUTING SOLUTIONS
TO HEWLETT-PACKARD**

*1400 NITs QuadraClear™ Display, 4G Mobile Broadband Technology, 30-Hour
Battery Life*, HDMI port, Protected By a 5-Year Bumper-to-Bumper Warranty*

LAKE FOREST, CA. – February 03, 2009 – Getac Inc., a leading innovator and manufacturer of rugged computers that meet the demands of field-based applications, announced today that it will supply rugged and durable mobile computing systems and services to Hewlett-Packard through its 3rd Party Solution group as a Premium Partner. The agreement will add to HP's 3rd Party portfolio a vast line of rugged mobile computing solutions for mission-critical and enterprise-based mobile, field and in-vehicle deployments.

The three-year agreement will allow enterprise and industry-specific organizations to acquire Getac-branded rugged notebooks, convertible/slate tablets, handhelds and in-vehicle solutions through HP's direct sales teams and channel partners.

Getac products have met the challenges of military, field service and sales force, public safety, utilities, transportation, telecommunication, construction, heavy industrial, mining and refining applications for nearly 20 years. Getac ruggedized notebook computers, tablets and handhelds are strictly controlled and monitored from the design, manufacturing, and quality assurance, to service flows.

"Our continued innovations in design and manufacturing has provided Getac with one of the largest and most competitive selections of rugged computer solutions," says Jim Rimay, president, Getac, Inc. "The combination of Getac's rugged and reliable computers, along with HP's strong account penetration, vast distribution channel and HP Financial Services, will allow the companies to increase penetration in specific markets" said Phil Cutrone, 3rd Party Solutions Business Manager

The agreement with the two companies allows the customer to acquire a high quality product and at the same time reduce procurement costs and simplify sales processes by purchasing Getac products directly from HP.

About Getac

Getac Inc. is a wholly owned subsidiary of Getac Technology Corporation. Getac Technology Corporation, a key subsidiary of MiTAC Synnex Business Group (2008 consolidated revenue 18 billion USD) was established in 1989 as a joint venture with GE Aerospace to supply defense electronic products. Getac's business coverage includes; rugged notebooks, rugged tablet PCs and rugged handheld devices for military, police, government, communications, manufacturing and transportation applications ranging from fully rugged and commercial-grade rugged. Getac's strong R&D capabilities allow it to provide a high level of customization and all-aspect hardware-software integration solutions. Apart from the rugged computing business, Getac is also involved with the design and manufacture of plastic and lightweight metal components. The acquisition of Waffer Technology in 2009 has made Getac the world's third largest aluminum-magnesium alloy producer.
